

cabinets, wardrobes, interior designs with sliding doors

# Open your eyes and release your imagination

as you watch your interior change

Komandor is a successful producer of sliding door hardware for closets, wardrobes and interior design concepts. Many years of experience in designing and production of modern solutions, through our product design and engineering departments, reflect our search for quality and perfection that has placed Komandor in a leadership position.

We desire to present this catalogue to assist and inspire project designs and furnishing systems to conform to current interior design trends.

Our sliding doors have a wide array of uses in various

configurations: living-rooms, bedrooms, halls, basements, and pantries.

They give a contemporary retrofit that creates an attractive accent as well as discreet back-lay that extracts the essence of the spatial character.

Presented in this catalogue, is only a small selection of arrangements that are possible with Komandor systems. The variations of profiles offered and flexibility of insert possibilities for doors, such as panels, glass, mirror, rattan, etc. gives many completion varieties.

living area 2 - 35

wardrobe 64 - 81

bedroom 36 - 51

children's room 82 - 85

foyer-hallway 52 - 63

## Hanging doors

In the hanging door system there is no need to install Bottom track. Thanks to it you keep a uniform floor between rooms.

»  
hanging door system  
aluminum profile  
colour – natural anode  
insert – Wenge Magia laminated panel

Doors in the hanging door system can be manufactured from various filling materials for each side of doors and different numbers of door divisions. The picture above shows an insert from a living room view –Wenge Magia laminated panel; the picture to the side from a dining room view - Brown painted glass.
